About phoenixNAP

Founded in 2009, phoenixNAP's mission has always been to provide outstanding value and service via state-of-the-art technology, and leading-edge technical assets. Through a wide breadth of product offerings, we provide top-of-the line solutions to our growing client base. Whether a prospective client is looking for high-density colocation, flexible storage, physical servers, cloud options or hardware-as-aservice (HaaS), our highly-skilled staff and scalable solutions on a global scale can successfully meet any infrastructure need.

Dedicated Servers

————

Reliable. Scalable.
Cutting-Edge. Globally available.

Deploy and Scale With Ease

Deploy your servers and scale with ease across global strategic edge locations with our highly redundant, secure and extremely well connected data centers.

Take your business to the next level with phoenixNAP.

Cutting-Edge Processing Technology with Cloud-Like Flexibility

Choose a configuration that meets your processing needs and scale as your demands grow.

Our dedicated servers bring you the performance of a dedicated platform with the flexibility of cloud pricing. You can choose from a wide selection of server models, processors, storage (HDD, SSD, NVMe, Optane™) and memory options. Accelerate your AI/ML/DL and HPC workloads and all your parallel processing needs with **2nd gen Intel® Xeon® Scalable processors**.

Compute Performance

Always have direct access to the latest Intel Xeon Scalable and Intel E family processors and cutting edge compute and storage technologies. Scale your deployments with no CAPEX.

Flexible Bandwidth Options

Leverage our global 2.35 Tbps network with included 100% uptime SLAs and wide range of bandwidth packages from 1 Gbps to 10 Gbps uplinks and unmetered options.

Free DDoS Included

Get 20 Gbps DDoS protection free for all your deployments. Ensure maximum protection for your critical data and applications without additional fees.

Getting started is as easy as ordering through our website or speaking with one of our non-commissioned sales associates.

100% Uptime
Experience reliability with our global network.

20 Minute Ticket Response
Need help? Submit a support ticket and you can expect a response in 20 minutes or less!

24/7 Live Chat Support
We're only a click away! Live Chat makes it easy to speak with us no matter where you are.

Fast Setup
All server deployments are completed in 4-6 hours or less. Fast, easy, done.

Global 2.35 Tbps + Network
Fast. Reliable. Keep your data flowing at amazing speeds.

4 Hour Hardware Repairs
You never have to worry about break-fixes again! We got you covered in 4 hours or less.
